

# Do you wish your school had a club for people who like **physics** and **maths**?

COMPOS could be the programme for you:

**Learn** how to solve complex problems

**Challenge** yourself to understand  
physics and maths beyond what's  
taught in school

**Discover** the opportunities available  
to you

FOR STUDENTS IN YEARS 10-12

- **Register** online and submit your entrance assignment in September to be considered for a place
- **Free** for state-school students
- **Find your tribe** - successful students will study in small tutor groups with like-minded peers

Learn.  
Challenge.  
Discover.
